

Short Course in Sustainable Energy!

**Led by Steve Hoffman, Ph.D., Executive Director,
NW Center for Sustainability & Innovation (NWCSI)
25 Years Experience as Sustainability Professional & Instructor
*Flexible Scheduling, Low Tuition, Expert Instruction!***

For all who want to learn more about the energy crisis! The course includes field trips, practical, real-world experience, lively discussion, and informative films & readings on energy efficiency, renewable energy, future prospects, and how to make a difference. It can be taken in-person, online, or as a hybrid of both. The instructor has 25+ years of practical & research experience in this field which is so crucial to the economy and environment. Visit www.nwcenterforsustainability.org , or call 360-720-4378, for more info.
